

AFC Logistics

Your logins, passwords, and how everything works — in plain English

Keep this document private. It contains your real business passwords. Store it somewhere safe (not shared publicly), and only send it to people at your company who need this access.

1. Your Bario Account (Request Portal)

This is your main account with us (Bario). From here you can send us work requests (anything you need built, fixed, or changed) and get an automatic time estimate for when it'll be done. It also has quick-access buttons to your other tools, like your CRM.

Website	www.bario.ca/login
Email	admin@afclogistics.ca
Password	This account already existed before this guide was made, so we don't have your current password on file. Click "Forgot password?" on the login page and a reset link will be emailed to admin@afclogistics.ca.

Once logged in, go to the **Requests** page — you'll see a "Quick access" box at the top with one-click buttons straight to your CRM and your website's admin dashboard.

2. Your Website Admin Dashboard

This is where you and your staff manage the day-to-day business: jobs, drivers, quotes, invoices, the live driver map, and driver applications. It needs two separate unlocks, one after the other.

Step 1 — Page passcode (just keeps random visitors out):

- 1 Go to afclogistics.ca
- 2 Scroll to the bottom (footer) and click **Admin**
- 3 Enter the passcode: **AFCAdmin2026!**
- 4 Click "Unlock Dashboard"

Step 2 — Your real staff login (this is the one with your actual business data):

- 1 Click **Sign In** (top right of the page)
- 2 Email: **admin@afclogistics.ca**
- 3 Password: **AFCAdmin2026!**

Tip: if you only do Step 1 and skip Step 2, you'll just see a demo/placeholder dashboard, not your real numbers. Always do both.

Note: your drivers sign in the exact same way (the same Sign In button), using the email and password you gave them after approving their application. The site automatically sends them to the right screen — you don't need to walk them through anything extra.

3. Your CRM (Customer Relationship Manager)

This is a separate tool for tracking leads, contacts, and notes about the people and businesses you deal with — like a digital rolodex with a memory. It's not the same login as your website dashboard above.

Website	afc.crm.bario.ca
Email	admin@afclogistics.ca
Password	AfcLogistics2026!Secure

Easiest way in: log into your Bario Account (Section 1 above) and click the “Open Your CRM” button — no need to remember this address separately.

4. Your Business Email

Your company email runs through Hostinger, not Bario — so you'll use it exactly like you always have (webmail, Outlook, phone mail app, etc.).

Email address	admin@afclogistics.ca
Password	Bario2026!
Incoming mail (IMAP)	imap.hostinger.com — port 993 — SSL/TLS on
Outgoing mail (SMTP)	smtp.hostinger.com — port 465 — SSL/TLS on

These IMAP/SMTP settings are only needed if you're setting this email up in an app like Outlook, Apple Mail, or your phone's mail app for the first time.

5. Your Business Phone Number

Number	780-977-8865
---------------	--------------

What it does	Calls and texts to this number are handled automatically and forwarded to your real phone. Dispatch can also call or text drivers and customers directly from the admin dashboard once a job's contact info is approved.
---------------------	--

6. Business Info on File

GST number	737333740RT0001
-------------------	-----------------

Need Help?

The fastest way to reach us for anything — a bug, a new feature, a question, a password issue — is to log into your Bario Account (Section 1) and submit a request on the Requests page. You'll get an automatic estimate of when it'll be handled, and you can reply right there to keep the conversation in one place.
